

RUTGERS

Office of the Executive Vice
President for Academic Affairs

Process for the Evaluation of Academic Deans November, 2021¹

This process has been formulated through a series of iterations from the Rutgers University Senate and the president of the University and applies to the academic dean of each academic unit of the University.

1. Each academic dean shall normally be evaluated by faculty, staff, and students in the unit every five years, but an evaluation can be triggered at any time by the Executive Vice President for Academic Affairs (EVPAA), the dean's chancellor or chancellor-provost, by the dean, or by the unit's faculty. The latter proceeds as follows: a petition by 25% of the unit's tenured faculty, or by 25% of the students of the unit, to the faculty secretary of the unit, or equivalent person, triggers a secret ballot docketed for the next faculty meeting where the question of whether to have an out-of-cycle evaluation of the dean, to commence at the current semester, is decided by majority vote of those voting². An evaluation by petition can only be requested once between regular evaluations.
2. The initial evaluation for newly appointed deans should be earlier than the fifth year so that evaluations by faculty, staff, and students should not coincide with the 5-year review by the dean's chancellor or chancellor-provost. Such evaluations should be carried out in in the fourth year, since this is expected to allow enough time for the deans to act on suggestions resulting from the evaluation. A single semester should normally suffice for completion of the evaluation.
3. At the direction of the EVPAA, the dean's chancellor or chancellor-provost will meet with the unit faculty and the dean to initiate the process. In most cases, the unit faculty will also be the "appropriate constituency body."³ In units where the faculty do not regularly meet as a body, an appropriately representative body shall be identified by the respective chancellor or chancellor-provost at the onset of the evaluation process.
4. The University Senate will be informed by the EVPAA in case of major delays or irregularities.
5. An ad hoc Dean Evaluation Committee (DEC), the majority of which must be faculty members⁴, will be formed by the dean's chancellor or chancellor-provost as follows:

¹ July 13, 2010; revised October 28, 2016, November 11, 2021

² The voting faculty membership as specified by department by-laws

³ The appropriate constituency body includes all faculty of all faculty titles in the department, including PTLs

⁴ Full time faculty members with three or more years of service at Rutgers, who (except for RBHS) are tenured, and who do not hold administrative appointments other than department chairs, graduate directors, or undergraduate directors.

- 5a. The appropriate governance body of the unit will submit a slate of ten faculty members⁴ or 50% of the faculty, whichever is smaller, from within the unit, from which three will be chosen.
 - 5b. The Executive Committee of the University Senate will submit a slate of eight faculty members² from without the unit, from which two will be chosen. Faculty from related units should be preferred in the composition of the slate.
 - 5c. Up to three administrators may be appointed by the dean's chancellor or chancellor-provost.
6. The DEC will meet as a body to elect its chair.
 7. The dean will be asked by their chancellor or chancellor-provost to submit to the committee, within a reasonable timeframe, a statement detailing responsibilities and accomplishments that will include data as well as the dean's vision and strategic plan for the unit. A formal job description, if it exists, will also be forwarded to the DEC. The dean's statement should be made available to those providing input to the process.
 8. The DEC, in consultation with the dean's chancellor or chancellor-provost, will decide on whether to include in its membership representatives from among the staff, students, alumni, or other constituencies (from within or without the unit or even the University) with whom the dean may have substantial contact. In so doing, the DEC must ensure that the majority of its members are faculty⁴. The DEC will also decide on the manner of choosing such members. In the case of student membership, the student representative(s) should be chosen from among student senators representing the unit, and/or officers of the appropriate student governing association.
 9. The DEC will then meet and formulate a plan for the review with advisory input from the dean and the dean's chancellor or chancellor-provost. In so doing, the committee shall enjoy significant latitude, but will need to ensure that meaningful faculty (all titles, including PTLs), student, and staff input is received during the evaluation process, and that the process provides for anonymity of respondents who request it. Furthermore, in addition to any unit-specific questions or criteria, DEC's will include in the review process evaluations of the dean in the following areas, as appropriate to the individual unit:
 - Quality of relationship with, and care for, students
 - Quality of collegial relationship between the dean and the faculty and/or fellows
 - Performance in personnel issues involving faculty and staff
 - Performance of financial and strategic management of the unit's resources
 - Overall performance
 - 9a. A survey should be formulated by the DEC. Provision should be made for narrative comments as well as a series of multiple-choice evaluations. The multiple-choice evaluations will include the five performance areas listed above plus any unit-specific additions from the unit faculty.

Generic templates for a faculty and a staff survey are appended as Appendix I (faculty) and Appendix II (staff). They are only meant to be of assistance to the DEC, which can add, amend, or delete elements as appropriate for the particular unit. These surveys have been formulated based on the initial survey used by the School of Communication and Information. Nevertheless, all previous survey formats should be kept by the Center for Teaching Advancement and Assessment Research (“CTAAR”) and be made available to the DEC for consideration.

Analysis of the data will be programmed so that means and other statistics will be standard outputs, along with anonymous listing of the narrative comments. This summary of respondents’ input is all that will be made available to those having access to survey results. The surveys must provide privacy assurances for the faculty, staff, students, and other respondents. Use of an electronic survey is recommended, but for units using an online survey, non-electronic copies of the survey instrument will be provided to faculty, students, or staff who do not wish to participate in the electronic version, and the DEC will need to determine how to protect the confidentiality of those respondents and how to ensure that their views are included in the overall evaluation. Response rates for the survey by type of respondent (tenured and tenure-track faculty, other faculty, student, administrative, and non-administrative staff, other) should be reported along with the survey results.

Units may wish to collect additional data, such as:

- Respondent’s familiarity with dean’s performance in position
- Quality of faculty and program development
- Fairness and ethics
- Leadership
- Communication
- Functional competence
- Commitment to diversity
- Interpersonal skills

- 9b. The survey will be supported by CTAAR. Numerical results will be tabulated by CTAAR, and an aggregation of the written comments will be provided. Nevertheless, evaluating the data and formulating the report is the task of the DEC and should not be delegated to the staff of CTAAR, or anyone else outside of the DEC.
- 9c. The committee or a subcommittee will write a summary of the written comments and will correlate them with the numerical results (if any). The DEC will consider survey response rates and distribution of responses in compiling the report.
10. A thorough evaluation process should be carried out by the DEC. Additional input could include discussion summarized in narrative form (similar to departmental narratives used in faculty personnel decisions), or letters and communications from individuals

commenting on the dean's performance, as long as anonymity of the individuals responding can be preserved if desired by those respondents. Units are encouraged to use qualitative as well as quantitative data in the evaluation process. The dean's chancellor or chancellor-provost is encouraged to make available some secretarial support to the DEC, if needed.

11. Once completed, the report of the DEC shall be sent to the dean, along with a request for a written response within a 30-day timeframe. The DEC will have access to the dean's response and may choose to modify the original evaluation report in response to the dean's reply, particularly in cases where the dean has pointed out to the committee errors of fact or interpretation. The DEC will append the response of the dean to its final report, or reference the lack of a response, and the chair of the DEC should directly distribute one copy each to the president, the EVPAA, the dean's chancellor or chancellor-provost, and the chair of the University Senate. Recipients of the report will acknowledge receipt. It is expected that the results will be confidential and that those with access to the results will respect that confidentiality.
12. The DEC will prepare a non-confidential summary of the findings and will mail or e-mail it to the faculty of the unit. In preparing this summary, the DEC may also wish to summarize the response of the dean. The contents should include non-confidential information at the discretion of the DEC. It is suggested that some results of the survey be part of the feedback summary. The dean's chancellor or chancellor-provost will have the opportunity to review and approve the summary before it is distributed to the faculty. The DEC will decide whether to share the non-confidential summary with other constituencies that have provided input to the evaluation.
13. Within 30 days of the release of the non-confidential summary to the faculty, the chancellor or chancellor-provost should meet with the dean to discuss the evaluation.
14. Also, within 30 days of the release of the non-confidential summary to the faculty, the chancellor or chancellor-provost should then meet together with the dean and the unit faculty to discuss those results of the evaluation that pertain to unit policy, its strategic direction and its mode of operation and plans (if any) to bring about policy changes stemming from the review process.
